

6516208050.txt

I recently purchased a XM radio and am so impressed with the quality of stations am receiving that I have no desire to go back to regular radio as most others I know who have purchased same. I rely on this XM service and constantly use the XM Traffic and weather feature in my travels and pay for this service.

I urge you to reject NAB'S petition 04-160 as the I feel it is not up to the NBA to dictate what I listen to.

Respectively  
Norman Brady
